Bengal Survey School (Mainamati Hills).

[P. O. Survey School, district Tippera.]

Admission Rules.

The Bengal Survey School is a Government institution under the administrative control of the Director of Industries, Bengal. It is situated on the Mainamati Hills, in the district of Tippera, four miles west of the Comilla railway station, on the Assam-Bengal Railway. The Dacca-Chittagong Trunk Road runs close to the site of the school. It is healthily situated and occupies a picturesque site.

2. The Principal is charged with the general control of the school and the maintenance of discipline.

3. The school, which is ranked as a major institution, is affiliated to the Survey Education Advisory Board, Bengal, for the Survey Final and the Amin Examinations.

4. In addition to the ordinary course, the school trains special students who do not intend to earn their living as Surveyors but wish to receive training in surveying; also candidates for appointment as district kanungos or any Government official rank.

5. The total number of admission to the first year course is limited to 50, of whom not more than 10 may be special students; for the second year course not more than 30 shall be admitted in any one year, and not more than 5 of these may be special students.

6. The full course of instruction extends over two years. The session for the first year course, which corresponds to the Amin standard, begins from the 1st August and terminates on the 31st July of the following year. The session for the second year or the Survey Final course, begins from the re-opening day of the school after the Durga Puja holidays or from such date as may be notified by the Principal, not later than 1st November. The second year course also runs for twelve months. No student shall be admitted, or, in case of reinstatement after removal of his name from the school books, be re-admitted after the expiry of one month from the opening of the session, or from the date of removal of his name, as the case may be.

7. Applications for admission to the first year course must be submitted to the Principal on or before the 30th June. Applications for admission to the second year course must be submitted on or before the 30th September or such other date as may be notified by the Principal. Each application, either for admission to first year or to second year, must be accompanied by a registration fee of Rs. 3, which shall in no case be returned. NOTE:—Preference is given to those who have passed the Matriculation Examination or received higher education.

Application for admission to first year must be accompanied by a medical certificate of fitness for arduous field work, in the approved form signed by a medical officer of rank not below that of a Sub-Assistant Surgeon. All selected candidates are required to undergo, before admission, a medical examination by the medical officer attached to the school.

The fee for Amin Examination is Rs. 15 and for the Survey Final Examination Rs. 25.

The Bengal Survey School is approved for the purposes of Regulation 38 of the Indian Coal Mines Regulations, 1926. In the terms of the said approval the holders of the Survey Final certificates, after they have gained practical experience of surveying the underground workings of a mine for six months only, will be eligible for appearing at any examination for Surveyor's certificates, under the Indian Mines Act, 1923.

11. Ordinarily candidates will not be admitted to the first year class unless they are under 21 years of age on the 1st January of the year in which the course begins. The limit of age for the candidates seeking admission to second year is below 22. The Director of Industries, Bengal, may make exceptions to this rule.

The restriction of age does not apply in the case of special students. But they should have the minimum educational qualification of regular students.

12. The school has no vacation like other educational institutions, but it remains closed on executive holidays granted by Government.

13. The school was established on a residential basis and the students are required to reside in the hostels attached to the school. The students may live with their parents or approved guardians with the special permission of the Principal; but such permission may be withdrawn at any time.

14. Messes are provided for the Hindu students. Muhammadan students make their own messing arrangements. The Hindu mess shall be entirely self-supporting; the monthly charges are fixed by the Principal from time to time. At present the charge is Rs. 11 per month. If the payment is not made during the month, the defaulting student's name shall be struck off the school books. 2. Ordinarily students are not granted leave out of the school for more than ten days during a session.

Simla, the 30th May, 1930.

No. 736-S.—The following statement is published for general information:—

A statement by His Excellency the Governor General of the reasons which have moved him in exercise of the powers conferred upon him by section 72 of the Government of India Act to make and promulgate an Ordinance to make provision against certain forms of intimidation under the title of the Prevention of Intimidation Ordinance, 1930.

H. W. EMERSON,
Secy. to the Govt. of India.

STATEMENT.

From the beginning of the civil disobedience movement it has been part of the programme of the Congress to use for various purposes the methods of picketing in order to make their will prevail. At the recent meeting of the Working Committee of the All-India Congress Committee held at Allahabad, resolutions were passed which urged the adoption of such methods on more intensive lines. The information received by my Government makes it plain that activities of this kind are now being pursued in various places in such a manner as gravely to interfere with the liberty of individuals in many directions.

2. The most common object with which picketing and other kinds of molestation and intimidation are being employed is for the purpose of preventing the sale of foreign goods or of liquor. It is no part of the duty of my Government, and certainly it is not their desire, to take steps against any legitimate movements directed to these ends. They are anxious to see the promotion of indigenous Indian Industries, and it is perfectly legitimate for any person, in advocacy of this object, to urge the use of Indian goods to the utmost extent of which Indian industry is capable. Nor have I anything but respect for those who preach the cause of temperance.

But what is not legitimate is for those who desire these ends, proper as they are in themselves, to pursue them by means amounting in effect to intimidation of individuals, and to endeavour to force their views on others, not by argument but by the coercive effect of fear. When resort is had to such methods it becomes necessary for Government to protect the natural freedom of action of those who may wish to sell and those who may wish to buy.

3. Unscrupulous efforts are also being made by the organisers of the civil disobedience movement to bring pressure to bear on Government servants to resign their posts or fail in their duty. The methods employed include, not only various forms of molestation and intimidation, but also definite attempts to use the weapon of boycott against Government servants. Thus it is found that in different parts of the country, not only are the residences of Government servants picketed and they themselves and their relatives subjected to threats of injury to life or property, but organised attempts are made to refuse them necessary supplies, the use of transport and the tenancy of houses. These methods have reached their maximum intensity in Gujerat, but they are also being practised in other parts of the country.

4. In normal circumstances when intimidation is a comparatively rare offence the ordinary law suffices. But when, as now, intimidation in its various forms is carefully organised and constitutes an important part of the programme of a movement designed to paralyse the Government and to coerce the public, it is necessary to see that powers should be adequate to deal rapidly and effectively with a menace to the public liberty. I have accordingly thought it essential to promulgate an Ordinance which is designed to protect the public in

general against molestation and intimidation and to check the boycott of Government servants. These powers will not be used to impede or interfere with the legitimate promotion of any economic movement which has for its object the furtherance of indigenous enterprise, nor will they be exercised in regard to any genuine labour dispute unconnected with political objects. The Ordinance is directed only against certain illegitimate activities which are being organised by the leaders of the civil disobedience movement. It will be withdrawn as soon as those activities cease. The Ordinance, moreover, has been so drafted as to be applied only where the powers are actually required. It will not be applied to any province in which the local Government has not satisfied my Government that the activities of the civil disobedience movement have rendered its application necessary. Further, within a province, the powers to deal with molestation or with the boycott of Government servants will come into force only in those areas in which the local Government considers that the situation necessitates their application. But where the situation so demands, I have no doubt that it is my duty to empower local Governments to give protection to those who merely desire to carry on their lawful business and pursuits without let or hindrance, and to safeguard public servants, as far as may be, against the attempt to deprive them by means of boycott of the ordinary requirements of daily life.

Simla, the 30th May, 1930.

No. 738-S.—The following statement is published for general information:—

A statement by His Excellency the Governor-General of the reasons which have moved him in exercise of the powers conferred upon him by section 72 of the Government of India Act to make and promulgate an Ordinance to make provision against instigation to the refusal of the payment of certain liabilities under the title of the Unlawful Instigation Ordinance, 1930.

H. W. EMERSON,

Secy. to the Govt. of India.

STATEMENT.

At the meeting of the Working Committee of the All-India Congress Committee held recently at Allahabad a resolution was passed to the effect that the time had arrived for the inauguration of a no-tax campaign by non-payment of specified taxes in certain provinces. Previous to the passing of this resolution a movement for the refusal of the payment of land revenue had been started in certain districts of Gujerat in the Bombay Presidency, and attempts had been made in several other provinces to persuade revenue and tax payers to withhold the payment of their liabilities. The decision above referred to clearly contemplates a wide extension of the civil disobedience movement in the shape of an appeal to the masses which must if successful involve grave reactions upon the administration and the stability of the State.

2. The taxes against which the movement is at present aimed are sources of provincial revenue, and their non-payment would deprive Local Governments of a considerable part of the resources on which they depend for the efficient conduct of the reserved and transferred departments. Were the programme of the Congress to meet with any appreciable measure of success, its first result would be to deprive the people of the advantage of the beneficent activities in which Local Governments are now engaged. It is clear, however, that no Government can tolerate the non-payment of its dues and that the Local Governments, confronted with a challenge of this nature, must exercise to the full the powers of realisation with which they are by law invested. The consequences will inevitably be suffering and distress to those who respond to the incitements of the Congress. Thus, both in the interests of the State and of the persons whom it is the design of the Congress to lead astray it is necessary to stop in its initial stages a movement so fraught with dangerous consequences.

3. While the law gives powers to proceed against persons who refuse to discharge their public liabilities, it does not include provisions by which effective action can be taken against those who, for political purposes, mislead and instigate others to their undoing. Having regard to these considerations and to the necessity of firm and prompt action against a movement, the object of which is to bring the administration to a standstill, I have deemed it necessary to promulgate an Ordinance, by which Local Governments may, as the necessity is established, be invested with powers to deal effectively with persons who instigate others to withhold the payment of certain lawful dues. I have thought it proper to include within the purview of the Ordinance certain liabilities (for instance, the rent of agricultural land) which, although not included in the dues which form the present announced object of attack by the Congress, have been mentioned by them from time to time as coming within the scope of the civil disobedience movement and would indeed in many parts of the country form the inevitable object of attack if any movement were initiated to withhold payment of revenue to Government.

4. The powers taken under the Ordinance will not be used by Local Governments to modify their revenue policy or to attentuate in any way the concessions by way of suspensions, remissions or otherwise which it is their practice to grant. Nor will the Ordinance be used indirectly to give assistance to landlords in the normal process of realization of rent or to facilitate enhancement of rent. It will be confined strictly to its declared purpose, namely, to prevent instigation in pursuance of a political movement to refuse payments lawfully due. I trust that in taking measures to check at the outset a movement which is intended to disorganise the administration and which must, if successful, damage the whole economic structure of society, I shall have the support of all those who desire to resist a plain threat to orderly progress and stable government.

IRWIN,

Viceroy and Governor General.

WATERING, ETC., OF PUBLIC STREETS, SQUARES AND GARDENS.

297. The **Commissioners** shall, so far as they may consider it necessary to do so for the public convenience, cause such public streets, squares and gardens, as they may from time to time determine, to be watered, oiled or otherwise treated in a suitable manner, and for that purpose may provide such animals, water-carts, materials and other apparatus as they may think necessary.

298. Streets and public places shall be maintained, repaired, protected and otherwise regulated in accordance with the rules contained in Schedule XVI.

POWER TO **Commissioners** TO REMOVE OR ALTER VERANDAH, ETC., OR FIXTURES ATTACHED TO BUILDING WHICH PROJECT, ETC., OVER PUBLIC STREET OR LAND.

299. (1) When any verandah, platform or other similar structure or any fixture attached to a building so as to form part of the building, whether erected before or after **these provisions come into force in the town of Howrah,** causes a projection, encroachment or obstruction over or on any public street or any land vested in the

Commissioners, they may, by written notice, require the owner or occupier of the building to remove or alter such structure or fixture.

(2) If the expense of removing or altering any such structure or fixture is paid by the occupier of the building, in any case in which the same was not erected by himself, he shall be entitled to deduct any reasonable expense incurred for the purposes of such removal or alteration from the rent payable by him to the owner of the building.

(3) If the owner or occupier of the building proves that any such structure or fixture was erected before the first day of June, **1869,** or that it was erected on or after that day with the consent of any municipal authority duly empowered in that behalf, the **Commissioners** shall, after such structure or fixture has been removed, make reasonable compensation to every person who suffers damage by the removal or alteration thereof.

300. (1) The **Commissioners** may, after giving notice to him, require any person to remove any wall and may of their own motion remove any fence, rail, post, platform, or other obstruction, projection or encroachment (not being a portion of a building or fixture referred to in section 299) which has been erected or set up, and any materials or goods which have been deposited, in a public street or in or over any drain or aqueduct in a public street, whether the offender be prosecuted under **these provisions** or not;

and the offender shall be liable for the payment of the expense of such removal.

(2) When under sub-section (1), the **Commissioners** cause any wall to be removed or remove any other obstruction, projection or encroachment from land which forms part of a public street, no compensation shall be payable, but the **Commissioners** shall be bound to provide proper means of access to and from the street if none exists already.

Execution of works in streets.

PROVISION OF FACILITIES, AND PAYMENT OF COMPENSATION, WHEN WORK EXECUTED BY **Commissioners** IN PUBLIC STREET.

301. (1) When any work is being executed by the **Commissioners** in any public street, they shall, so far as may reasonably be practicable, make adequate provision for—

(b) proper access to all premises approached from such street; and

(c) any drainage, water-supply, or means of lighting which are interrupted by reason of the execution of such work.

(2) The **Commissioners** shall pay compensation to any person who sustains special damage by reason of the execution of any such work.

Building-lines and street alignments for public streets.

POWER TO **Commissioners** TO PRESCRIBE BUILDING-LINE AND STREET ALIGNMENT.

302. (1) If the **Commissioners** consider it expedient to prescribe for any public street a building-line or a street alignment, or both a building-line and a street alignment, they shall give public notice of their intention to do so:

Provided that no building-line shall ordinarily be prescribed for any street laid out and made before the commencement of this Act.

(2) Every such notice shall specify a period within which objections will be received; and a copy of the notice shall be sent by post to every owner of premises abutting on such street who is registered in respect of such premises in the books of the municipality:

Provided that failure or omission to serve such notice on any owner shall not invalidate proceedings under this section.

(3) The **Commissioners** shall consider all objections received within the said period, and shall hear any objector who comes forward within such period as they may fix in this behalf, and may then make an order prescribing a building-line or a street alignment, or both a building-line and a street alignment for such public street.

A register or book with plans attached shall be kept by the **Commissioners** showing all public streets in respect of which a building-line or street alignment has been prescribed, and such register shall contain such particulars as to the **Chairman** may appear to be necessary and shall be open to inspection by any person upon payment of such fee as may from time to time be prescribed by the **Commissioners at a meeting.**

(4) A building-line shall not be prescribed so as to extend further back than the main front wall of any building (other than a boundary wall) abutting on the street at its widest part.

(5) Every order made under sub-section (3) shall be published in the *Calcutta Gazette,* and shall take effect from the date of such publication.

RESTRICTIONS ON ERECTION OF, ON ADDITION TO, BUILDINGS OR BOUNDARY WALLS WITHIN STREET ALIGNMENT OR BUILDING-LINE.

303. (1) No portion of any building or boundary wall shall be erected or added to within a street alignment prescribed under section 302:

Provided that the **Commissioners** may, in their discretion, permit additions to a building to be made within a street alignment, if such additions merely add to the height of, and rest upon, an existing building or wall, upon the owner of the building executing, if required to do so by the **Commissioners,** an agreement binding himself and his successors in interest—

(a) not to claim compensation in the event of the **Commissioners** at any time thereafter calling upon him or such successors, by written notice, to remove any addition made to any building in pursuance of such permission, or any portion thereof, and

(b) to pay the expenses of such removal.

(2) If the **Commissioners** refuse to grant the permission applied for to add to any building on the ground that the proposed site falls wholly or in part within a street alignment prescribed under section 302, and if such site, or the portion thereof which falls within such alignment, be not acquired **or an application for acquisition of the same be not submitted before the Land Acquisition Collector** by the **Commissioners** within six months after the date of such refusal, they shall pay reasonable compensation to the owner of the site.

(3) No person shall erect or add to any building between a street alignment and the building-line without first obtaining the permission of the **Commissioners** to do so :

Provided that it shall not be necessary to obtain permission under this sub-section to erect, between a street alignment and the building-line—

(a) a porch or balcony, or

(b) along not more than one-third of the frontage, an outhouse not exceeding fifteen feet in height.

(4) If the **Commissioners** grant permission under sub-section (3), they may require the applicant to execute an agreement in accordance with the proviso to sub-section (1).

POWER TO **Commissioners** TO TAKE POSSESSION OF, AND ADD TO STREET, LAND SITUATED WITHIN PRESCRIBED STREET ALIGNMENT OR COVERED BY PROJECTING BUILDINGS.

304 (1) The **Commissioners** may at any time, after giving notice to the owner of the land of their intention, take possession of—

(a) any land (abutting on a public street) upon which any portion of any building or wall, projecting beyond the front of the adjoining building or wall, on either side of such first-mentioned building or wall, has collapsed or been demolished or burnt down, and

(b) any land not covered by buildings (including land on which a building has collapsed or been demolished or burnt down) which is situated within a street alignment prescribed under section 302,

after making full compensation to the owner thereof for any direct damage which he may sustain thereby and shall take possession of any land as specified in clause (b) if the owner thereof calls upon them to do so.

(2) Any land taken possession of under sub-section (1) shall forthwith be added to and become part of the said street, and shall vest in the **Commissioners**

Explanation.—The expression "direct damage," as used in sub-section (1) with reference to land, means the market-value of the land taken and the depreciation, if any, in the ordinary market-value of the rest of the land resulting from the area being reduced in size ; but does not include damage due to any particular use to which the owner may allege that he intended to put the land although such use may be injuriously affected by the reduction of the site.

POWER TO **Commissioners** TO SET BUILDINGS FORWARD TO IMPROVE LINE OF PUBLIC STREET.

305. The **Commissioners** may, upon such terms as they think fit, allow any building or wall to be set forward for the purpose of improving the line of a public street.

Opening, improvement and closing of public streets, squares and gardens.

POWER TO **Commissioners** TO MAKE, IMPROVE AND CLOSE STREETS, SQUARES AND GARDENS.

306. The **Commissioners** may—

(a) lay out and make new streets, squares and gardens ;

(b) construct new bridges, causeways, culverts and sub-ways ;

(c) turn, divert, or temporarily or permanently close any public street or part thereof, or permanently close any public square or garden ; and

(d) widen, open, enlarge, or otherwise, improve any public street, square or garden.

POWER TO **Commissioners** TO DISPOSE OF A PERMANENTLY CLOSED STREET, SQUARE OR GARDEN.

307. (1) When any public street or part thereof, or any public square or garden is permanently closed under section 306, the **Commissioners** may sell or lease the site of so much of the roadway and foot-path as is no longer required, or the site of the square or garden, as the case may be, making due compensation to, or providing means of access for, any person who may suffer damage by such closing.

(2) In determining such compensation under section 523 **of the Calcutta Municipal Act, 1923**, the court shall make allowance for any benefit accruing to the same premises or any adjacent premises belonging to the same owner from the construction or improvement of any other public street, square or garden, at or about the same time that the public street, square or garden, on account of which the compensation is paid, is closed.

Projected public streets.

PROJECTED PUBLIC STREETS.

308. (1) The **Commissioners** may from time to time prepare schemes and plans of projected public streets, showing the direction of such streets, the street alignment and building-line on each side of them, their intended width, and such other details as may appear desirable.

(2) The width of such projected streets, inclusive of space for foot-paths, shall not be less than **twenty** feet or, in a *bustee*, **twelve** feet :

Provided that—

(a) the **Commissioners** may, for special reasons, reduce the width of any projected street, but not so as to be less than thirty feet or in a *bustee* sixteen feet ; and

(b) this sub-section shall not apply in any case in which the projected street, or any part thereof, runs along an existing street and the **Commissioners** consider it impracticable to widen the street to the extent of forty feet or twenty feet, as the case may be.

PROVISIONS OF SECTIONS 302 AND 303 TO APPLY TO PROJECTED PUBLIC STREETS.

309. The provisions of sections 302 and 303 shall, with all necessary modifications, apply to public streets projected under section 308.

Acquisition of land and buildings.

POWER TO **Commissioners** TO ACQUIRE LAND AND BUILDINGS FOR IMPROVEMENT OF PUBLIC STREETS, SQUARES AND GARDENS.

310. (*1*) The **Commissioners** may acquire—

(*a*) any land required for the purpose of opening, widening, extending or otherwise improving any public street, square or garden, or of making any new public street, square or garden, and

(*b*) the buildings (if any) standing upon such land.

(*2*) The **Commissioners** with the sanction of the Local Government, and after giving due notice of their intention and an opportunity to any objector, who appears within such period as they may fix, to be heard in this connection, may acquire, in addition to any land and buildings acquired under sub-section (*1*), any land outside any proposed street alignment, with the buildings (if any) standing thereupon, which the **Commissioners** may, for any of the purposes mentioned in sub-section (*1*), including the recoupment of the cost or any portion of the cost incurred for any such purposes, consider it expedient to acquire.

Abandonment of acquisition.

ABANDONMENT OF ACQUISITION IN CONSIDERATION OF SPECIAL PAYMENT.

311. (*1*) In any case in which the Local Government have sanctioned the acquisition of land under section 310, sub-section (*2*), the owner of the land, or any person having an interest therein greater than a lease for years having seven years to run, may make an application to the **Commissioners**, requesting that the acquisition of the land be abandoned in consideration of the payment by such person of a fee to be fixed by the **Commissioners** in that behalf.

(*2*) The **Commissioners** shall admit every such application if it reaches them before the time fixed by the Collector under section 9 of the Land Acquisition Act, 1894 (I of 1894), for making claims in reference to the land :

Provided that unless the application is made by all the persons who have an interest in the land greater than a lease for years having seven years to run, the application shall not be deemed to be admitted unless the person applying undertakes to pay in one instalment the full fee payable under sub-section (*3*) and thereafter pays such fee.

Explanation.—A mortgagee shall not be deemed to be a person having an interest in the land greater than a lease for years having seven years to run.

(*3*) If the **Commissioners** decide to admit any such application, they shall forthwith inform the Collector, and the Collector shall thereupon stay proceedings for the acquisition of the land, for such period as the **Commissioners** may request, and the **Commissioners** shall proceed to fix a fee in consideration of which the acquisition of the land may be abandoned.

(*4*) In fixing the fee to be paid in consideration of the abandonment of the acquisition of the land the **Commissioners** shall, so far as to them may appear to be practicable, fix a sum which in their opinion represents two-thirds of the increment in the value of the land, which will in their opinion accrue to that land as a result of the improvements effected in the locality by the scheme for the purposes of which the acquisition has been sanctioned.

(*5*) Such fee shall be and remain a charge on the land, in respect of which it has been fixed, until the repayment thereof with interest in the manner hereinafter provided and shall be payable by the applicant on or before a date to be fixed by the **Commissioners** in this behalf ; and such date shall not be less than four years from the publication of the notification under section 6 of the Land Acquisition Act, 1894 (I of 1894), nor shall such date be a date before that on which the scheme is declared by the **Commissioners** to be completed in so far as it affects such land.

(*6*) Before the date so fixed, the person from whom the **Commissioners** have arranged to accept the said fee, may, if the **Commissioners** are satisfied that the security offered by him is sufficient, execute an agreement with the **Commissioners** either—

(*i*) to leave the said fee outstanding as a charge on his interest in the land, subject to the payment in perpetuity of interest at a rate not exceeding seven *per cent. per annum*, the said interest to run from the date fixed under sub-section (*5*), or

(*ii*) to pay the said fee by such number of equal yearly or half-yearly instalments of principal or of principal and interest, as may be approved by the **Commissioners**, interest in both cases being calculated at a rate not exceeding seven *per cent. per annum* on the amount outstanding.

(*7*) When the said fee has been paid on or before the date fixed under sub-section (*5*), or when an agreement has been executed in pursuance of sub-section (*6*) in respect of any land, the proceedings for the acquisition of the land shall be deemed to be abandoned.

(*8*) If the said fee be not paid on or before the date fixed under sub-section (*5*), the Collector shall then proceed to acquire the land.

(*9*) If any sum payable under an agreement executed in pursuance of sub-section (*6*) be not paid on the date on which it is due, or on such later date as the **Commissioners** may in their discretion fix in this behalf, so much of the fee fixed by the **Commissioners** under sub-section (*3*) as is still unpaid, shall be payable on that date, in addition to the said sum.

(*10*) At any time after an agerement has been executed in pursuance of clause (*i*) of sub-section (*6*) any person may pay off the balance outstanding of the charge created thereby, with interest due, if any, at a rate not exceeding seven *per cent. per annum*, up to the date of such payment.

RECOVERY OF MONEY PAYABLE IN PURSUANCE OF SECTION 311.

312. When an agreement has been executed by any person in pursuance of section 311, sub-section (*6*), in respect of any land, and any money payable in pursuance of that section is not duly paid, the same shall be recoverable by the **Commissioners** (together with interest up to the date of realization, at a rate not exceeding seven *per cent. per annum*), under **these** provisions ;

and, if not so recovered, the **Commissioners** may, after giving public notice of their intention to do so, and not less than one month after the publication of such notice, sell the interest of the said person or successor in such land by public auction, and may deduct the said money and the expenses of the sale from the proceeds of the sale, and shall pay the balance (if any) to the defaulter.

AGREEMENT OR PAYMENT UNDER SECTION 311 NOT TO BAR ACQUISITION UNDER A FRESH DECLARATION.

313. If any land in respect of which an agreement has been executed, or a payment has been accepted, in pursuance of section 311, sub-section (*6*), be subsequently required for any of the purposes of **the Bengal Municipal Act, 1884, or the Calcutta Municipal Act, 1923, as in force in the town of Howrah,** the agreement or payment shall not be deemed to prevent the acquisition of the land in pursuance of a fresh declaration published under section 6 of the Land Acquisition Act, 1894.

Special provisions as to private streets.

MAKING OF NEW PRIVATE STREETS.

314. (*1*) Any person intending to make or lay out a new private street shall send to the **Commissioners** a written notice, with plans and sections showing the following particulars of the proposed street, namely :—

(*a*) the level, width and alignment thereof, and

(*b*) the arrangements to be made for levelling paving, metalling, flagging, channelling, sewering, draining and lighting the street.

(*2*) The provisions of **the Calcutta Municipal Act, 1923, as in force in the town of Howrah** as to the width of public streets and the height of buildings abutting thereon, and as to projected public streets, shall respectively apply in the case of streets referred to in sub-section (*1*) ; and all the particulars referred to in that sub-section shall be subject to approval by the **Commissioners :**

Provided that the **Commissioners** may allow a private street to be made or laid out of a width less than forty feet but not less than twenty feet, and, if the street is less than two hundred feet in length, the maximum width of such street may ordinarily be taken to be thirty feet instead of forty feet.

(*3*) Within ninety days after the receipt of any notice under sub-section (*1*), the **Commissioners** shall either sanction the making of the street, or disallow it, or ask for further information with respect to such street.

(*4*) Such sanction may be refused—

(*i*) if the proposed street would conflict with any arrangements which have been made or which are in the opinion of the **Commissioners** likely to be made within a reasonable period, for carrying out any general scheme of street improvement, or

(*ii*) if the proposed street does not conform to the provisions referred to in sub-section (*2*), or

(*iii*) if the proposed street is not designed so as to connect at one end with a street which is already open.

(*5*) If further information is asked for under sub-section (*3*), no steps shall be taken to make or lay out the street until orders have been passed upon receipt of such information, and such orders shall be passed within ninety days of the receipt of such further information.

(*6*) If within ninety days after the receipt of any notice under sub-section (*1*), or within ninety days after the receipt of any further information asked for under sub-section (*3*), the **Commissioners** have not refused sanction to the making of the private street, it shall be deemed that sanction to the same has been granted.

PROHIBITION OF BREACH OF SECTION 314.

315. Except as provided in sub-section (*6*) of section 314, no person shall make or lay out any street referred to in sub-section (*1*) of that section—

(*a*) until he has obtained the sanction of the **Commissioners** under that section, or

(*b*) in contravention of any orders made thereunder.

ALTERATION OR DEMOLITION OF STREET MADE IN BREACH OF SECTION 314.

316. (*1*) If any person makes or lays out any street referred to in section 314, sub-section (*1*), without having obtained the sanction of the **Commissioners** under that section, or in contravention of any orders made thereunder, they may, whether or not the offender be prosecuted **hereunder,** by written notice—

(*a*) require the offender to show sufficient cause, by a written statement signed by him and sent to the **Commissioners** on or before such day as may be specified in the notice, why such street should not be altered to their satisfaction or, if such alteration be impracticable, why such street should not be demolished, or

(*b*) require the offender to appear before them, either personally or by a duly authorized agent, on such day and at such time and place as may be specified in the notice, and show cause as aforesaid.

(*2*) If any person on whom such notice is served fails to show sufficient cause, to the satisfaction of the **Commissioners,** why such street should not be so altered or demolished, they may cause the street to be so altered or demolished, and the expenses thereof shall be paid by such person.

LEVELLING, ETC., OF PRIVATE STREETS.

317. (*1*) If any private street or any part thereof be not levelled, paved, metalled, flagged, channelled, sewered, drained and lighted to the satisfaction of the **Commissioners,** they may, by written notice to the owner of such private street or the respective owners of the land fronting, adjoining or abutting upon such street or part, as the case may be, from time to time require them to level, pave, metal, flag, channel, sewer, drain and light such street or part.

(*2*) If such notice be not complied with and the **Commissioners** under section 510, sub-section (*2*) **of the Calcutta Municipal Act, 1923,** execute the works mentioned or referred to therein, the expenses thereby incurred shall be paid by the owner of such private street or the owners in default, in such proportion as may be settled—

(*a*) by the **Commissioners,** or,

(*b*) in case of dispute, by the Court under section 523 **of the Calcutta Municipal Act, 1923.**

POWER TO **Commissioners** TO TAKE OVER PRIVATE STREETS.

318. If any private street which conforms to the provisions referred to in section 314, sub-section (*2*), be levelled, paved, metalled, flagged, channelled, sewered, drained and lighted to the satisfaction of the **Commissioners** and if a majority of—

(*a*) the owners of land or buildings in such street, or

(*b*) the owners of the street, or

(c) the owners who have paid the expenses referred to in section 317, sub-section (2),

signify in writing their consent thereto, the **Commissioners** shall declare the same, by written notice put up in any part of such street, to be a public street, and thereupon the same shall become a public street and shall vest in the **Commissioners** :

Provided that, where a private street has been in existence for not less than thirty years and is used by the people of the locality as a thoroughfare, the **Commissioners** may declare such street to be a public street even though it does not strictly comply with the provisions of this chapter, if—

(a) the owners of lands and buildings in such street, or

(b) the owners of the street,

signify in writing their consent thereto.

(2) The **Commissioners** may from time to time prescribe a scale of fees of licensed building surveyors in respect of any class of buildings, to be made applicable in the absence of a written contract to the contrary.

POWER TO **Commissioners** TO DECLINE PLANS, ETC., MADE BY PERSONS OTHER THAN LICENSED BUILDING SURVEYORS.

POWER TO **Commissioners** TO REGULATE FUTURE ERECTION OF CERTAIN CLASSES OF BUILDINGS IN PARTICULAR STREETS OR LOCALITIES.

324. (1) The **Commissioners** may at any time give public notice of their intention to declare that, in any street, portion of a street or locality specified in the notice,—

328. (*1*) Save with the special permission of the **Commissioners** no person shall use a building or a substantial part of a building erected for use as, and belonging to, any one class of buildings, as a building of any other class in such a manner that the building or part thereof so used will not be in conformity with **these** provisions, or of any rules or by-laws made thereunder, relating to buildings of that other class :

Provided that no change made by **these provisions** in the classification of buildings as in force under the Calcutta Municipal Act, 1899 (Ben. Explanation.—No work of re-erection or re-construction which would constitute any building a new building under sub-clause (*b*), (*c*) or (*d*) of clause (*46*) of section 3 shall, for the purposes of this section, be deemed to be an alteration of, or addition to, or any other work made or done to or upon, such building, but in the case of such re-erection or re-construction the provisions relating to the erection of new buildings as referred to in this section shall apply to the whole of the said new building.

POWER TO RELAX PROVISIONS OF CHAPTER AND SCHEDULE XVII.

332. The **Commissioners** shall not refuse sanction to the erection of a boundary wall exceeding ten feet in height or to any addition to any boundary wall so as to make it exceed ten feet in height on the ground that such boundary wall or such addition would cause interference with an existing easement in favour of, or prevent the acquisition of an easement by, the owner of adjacent premises.

Exemptions.

EXEMPTIONS.

333. The following buildings shall be exempted from the operation of this chapter, namely,—

336. None of the powers conferred by any of the following sections of this chapter shall be exercisable in respect of—

(*a*) any *bustee* the total area of which, as comprised within the limits defined under sections 335, is less than two *bighas*, or

337. (*1*) Notwithstanding anything contained in section 336, the **Commissioners** may, for sanitary reasons, require the owner of any *bustee* of which the total area as comprised within the limits defined under section 335 is more than ten *cottahs* but less than two *bighas*—

(*a*) to open up and construct such passages, not exceeding twelve feet in width, between the huts, and to provide such surface drains and latrines for the use of the tenants of the *bustee*, as the **Commissioners** may think necessary, and

(*b*) to remove the whole or any portion of a hut, provided that the owner of the hut shall be entitled to receive from the Municipal Fund such compensation calculated according to the estimated value of the structure removed, as the **Commissioners** may determine.

(*2*) When the **Commissioners** propose to issue a requisition in respect of any *bustee* under sub-section (*1*), they shall prepare a standard plan showing the proposed improvements, and may then, by written notice, call on the owner of the *bustee* to show cause why the *bustee* should not be improved within a date to be fixed in conformity with the said plan.

(*3*) The provisions of sections 345, 346, 357, 352, 355, 356 and 359 shall, with all necessary modifications, be deemed to apply in the case of every requisition issued under sub-section (*1*).

POWER TO **Commissioners** TO REQUIRE PREPARATION OF STANDARD PLAN BY OWNER OF *bustee.*

338. (*1*) The **Commissioners** may at any time, if it appears to them that any *bustee*, for sanitary reasons, requires improvement, serve a written notice upon the owner of such *bustee* requiring him to prepare and submit a plan of the *bustee*, to the scale of twenty-five feet to the inch, showing—

(*a*) the manner in which the *bustee* should be laid out, with huts standing in regular lines and with a free passage, in front of and behind each line, of such width as may be necessary for proper ventilation and for scavenging,

(*d*) the streets and passages which are to be maintained for the benefit of the tenants,

(*e*) the tanks, wells and low lands which are to be filled up and the tanks which are to be conserved, and

(*f*) any other proposed improvements :

Provided that when there are two or more owners of a *bustee*, the **Commissioners** may require them to prepare and submit a joint plan of the *bustee.*

(2) The streets referred to in clause (d) of sub-section (1) shall be not less than sixteen feet wide and ordinarily not more than two hundred feet apart, and the passages referred to in that clause shall be not less than twelve feet wide.

(3) If there is any masonry building within the limits of the *bustee*, the said plan shall be so prepared as clearly distinguish such building and the land pertaining to it.

(4) The said plan—

(i) shall be considered by the **Commissioners** and modified in such manner as may be required, and

(ii) shall, when approved by them, be deemed to be the standard plan of the *bustee*.

PREPARATION OF STANDARD PLAN BY **Commissioners** WHERE OWNERS DISAGREE, ETC.

339. (1) If, after the service of a notice under section 338 on the owners of any *bustee*, such owners—

(a) do not agree among themselves in the preparation of a plan as required by such notice, or

(b) for any reason prefer to have a plan prepared for them by the **Commissioners**, or

(c) fail to comply within sixty days with such notice,

the **Commissioners** shall cause the *bustee* to be inspected by two persons appointed in that behalf, one of whom shall be a medical officer of the **Commissioners** or a person holding the diploma of Public Health or such other qualification as may be prescribed by the **Commissioners** in this behalf, and the other an engineer, and the **Commissioners** on receipt of their report shall cause a plan to be prepared to the scale and showing the particulars prescribed in the said section.

(2) When a plan has been prepared under sub-section (1), the **Commissioners** shall fix a day for the hearing of objections (if any) made by or on behalf of the owners of the *bustee* and the owners of huts or masonry buildings therein,

and, after hearing such objections, may, in their discretion, approve such plan either with or without modifications.

(3) Every plan of a *bustee* approved under sub-section (2) shall be deemed to be the standard plan of the *bustee*.

(4) When the **Commissioners** cause a plan to be prepared under sub-section (1), they may charge the said owners therefor at a rate not exceeding five rupees *per bigha*.

SUSPENSION OF BUILDING PENDING PREPARATION OF STANDARD PLAN.

340. When the owner of a *bustee* has been required under section 338 to prepare a plan, no new building which is a hut shall be erected and no hut shall be added to within the *bustee* until a plan has been prepared and approved under that section or under section 339.

PROHIBITION OF BUILDING CONTRARY TO STANDARD PLAN.

341. When a standard plan has been approved for any *bustee* under section 338 or section 339, no new building which is a hut shall be erected and no hut shall be added to in such *bustee* unless the hut, or the portion to be added, as the case may be, occupies a site, or portion of a site, marked in the standard plan as the site for a hut.

POWER TO **Commissioners** TO REQUIRE REMOVAL OF HUT NOT IN CONFORMITY WITH STANDARD PLAN.

342. (1) When a standard plan has been approved for any *bustee* under section 338 or section 339, the **Commissioners** may at any time, by written notice, require the owner of any hut in such *bustee*, which is not in conformity with the standard plan, to remove the whole or any portion of such hut.

(2) When a hut or portion of a hut has been removed in compliance with a requisition made under sub-section (1), the owner thereof shall be entitled to receive from the Municipal Fund such compensation calculated according to the estimated value of the structure removed, less the value of the materials, if the owner elects to take these, as the **Commissioners** may determine.

POWER TO **Commissioners** TO REQUIRE CARRYING OUT OF OTHER IMPROVEMENTS IN CONFORMITY WITH STANDARD PLAN.

343. (1) The **Commissioners** may at any time, by written notice, require the owner of any *bustee* for which a standard plan has been prepared under section 338 or section 339—

(a) to construct the drains, privies, streets and passages, provide the means of lighting, water-supply and common bathing arrangements, and carry out the other improvements shown in such plan, so far as may be practicable having regard to the existing arrangement of the huts, and

(b) if any tank, well or low land is shown in such plan as to be conserved or filled up, to conserve or fill up such tank, well or low land.

(2) Until such notice is complied with, the **Commissioners** may refuse to sanction the erection of a new building which is a hut or the making of any addition to any hut in the *bustee*.

INSPECTION, REPORT AND PREPARATION OF STANDARD PLAN BY REGISTERED MEDICAL PRACTITIONER AND ENGINEER, IN CASES REQUIRING EXPEDITION.

344. (1) If it appears to the **Commissioners** that any *bustee*—

(a) by reason of the manner in which the huts are crowded together, or

(b) for any other reason,

is in such an unhealthy condition that the procedure provided by the foregoing sections of this chapter would be too dilatory to meet the emergency,

they may, after giving notice to the owners of the *bustee*, cause the *bustee* to be inspected by two persons appointed in that behalf, one of whom shall be a medical officer of the **Municipality of Howrah** or a person holding the diploma of Public Health or having such other qualifications as may be prescribed by the **Commissioners** in this behalf, and the other an engineer. In appointing such persons the **Commissioners** shall consider any proposals made by the owner of the *bustee* in this connection.

(2) The said persons shall forthwith—

(a) make, sign and submit a written report on the sanitary condition of the *bustee*, and

(b) annex to the report a plan approved by them as a proper standard plan of such *bustee*, and

(c) certify—

(i) which of the improvements required to bring the *bustee* into conformity with such plan should be taken in hand forthwith in consequence of the unhealthy condition of the *bustee*, and

(ii) which (if any) of such improvements should be deferred for action under the foregoing sections of this chapter.

(3) The improvements referred to in sub-clauses (i) and (ii) of sub-section (2) shall be specified in two separate schedules, which shall be annexed to the report and called Schedule A and Schedule B, respectively.

(4) The said schedules shall clearly indicate—

(a) the huts which should wholly or in part be removed,

(b) the streets, passages and drains which should be constructed,

(c) the means of lighting, water supply, common bathing arrangements and common privy accommodation to be provided for the use of the tenants,

(f) any masonry building within the *bustee*, and any land pertaining to such building which it may be necessary to purchase or acquire for the purpose of making such streets or passages, or effecting any such improvement.

(5) A report (together with the schedules annexed thereto) made and signed under this section by any two persons appointed under sub-section (1) shall be sufficient evidence of the result of such inspection.

APPROVAL BY **Commissioners** OF STANDARD PLAN AND SCHEDULES ANNEXED TO SUCH REPORT.

345. (1) The **Commissioners** shall consider every report (together with the plan and Schedules A and B annexed thereto) made under section 344, and, after hearing the objections (if any) of the owner of the *bustee* in respect of which the report has been made, and of any owner of any hut which is required to be demolished or altered and of the owner of any masonry building which is to be dealt with under sub-section (4) of section 344, may approve such plan and schedules after making such modifications (if any) therein as they may think fit.

(2) The plan so approved shall be deemed to be the standard plan of such *bustee*.

POWER TO **Commissioners** TO REQUIRE OWNERS OR OCCUPIERS TO CARRY OUT IMPROVEMENTS SPECIFIED IN SCHEDULE A.

346. When Schedule A, annexed to a report made under section 344, has been approved under section 345, the **Commissioners** may cause a written notice to be served upon—

(a) the owners of the huts referred to in such Schedule A, or

(b) the owners of the *bustee* in which such huts are situated,

requiring them to carry out all or any of the improvements specified in that schedule or any portion of such improvements.

PAYMENT OF EXPENSES INCURRED IN CARRYING OUT IMPROVEMENTS.

347. When any improvements required by a notice under section 346 are carried out by the **Commissioners** under section 510 **[of the Calcutta Municipal Act, 1923,** all expenses incurred thereby including such reasonable compensation as the **Commissioners** may think fit to pay to the owners or occupiers of huts removed,

shall be paid by the owner of the *bustee* to the **Commissioners** and shall constitute a charge upon such *bustee* :

Provided that, if it appears to the **Commissioners** that any such owner is unable, by reason of poverty, to pay such expenses or any portion thereof, in the case of expenses relating to work which should in the opinion of the **Commissioners** have been done by the owners or occupiers of huts within the *bustee*, they may order the same or any portion thereof to be paid out of the Municipal Fund, and in the case of expenses which should be paid by the owner of the *bustee*, they may order the same or any portion thereof to be advanced out of the Municipal Fund, but thereafter to constitute a charge upon such *bustee*.

DISPOSAL BY THE **Commissioners** OF MATERIALS OF HUTS PULLED DOWN.

348. (1) If, in carrying out any improvement as provided in section 346, the **Commissioners** cause any hut or portion of a hut to be pulled down, they shall—

(a) cause the materials of such hut or portion of a hut to be given to the owner of the hut if such owner elects to take them ; or

(b) if the owner does not elect to take the materials, or if the owner be unknown or the title to the hut be disputed, cause such materials to be sold, and hold in deposit the proceeds of the sale, together with any sum awarded as compensation under section 347.

(2) Any amount held in deposit under clause (b) of sub-section (1) shall be so held by the **Commissioners** until any person obtains an order from a competent Court for the payment to him of such amount.

(3) A Court of Small Causes shall be deemed to be a competent Court for the purposes of this section.

POWER TO **Commissioners** TO PURCHASE OR ACQUIRE MASONRY BUILDINGS OR LAND IN *bustee*.

349. The **Commissioners** may, at any time after the receipt of a report made under section 344, purchase or acquire—

(a) any masonry building within such *bustee*, or

(b) any land appertaining to such building, or

(c) any such building, together with the land appertaining thereto or any portion thereof,

which is mentioned in that behalf in Schedule A or Schedule B annexed to such report.

APPLICATION OF SECTIONS 341 TO 343 TO *bustee* FOR WHICH STANDARD PLAN HAS BEEN APPROVED UNDER SECTION 345.

350. When a standard plan of a *bustee*, and any Schedule B, annexed to the report made under section 344 with respect to that *bustee* have been approved under section 345,—

(*a*) the provisions of section 341 shall apply to such *bustee*, and

(*b*) the provisions of sections 342 and 343 shall apply to such *bustee* in respect of the improvements indicated in that schedule as provided in section 344, sub-section (*4*).

351. (*1*) Notwithstanding anything contained in sections 345 to 350, the **Commissioners** may, after receipt of a report made under section 344 with respect to any *bustee*, and after giving an opportunity of being heard to the owner thereof, pass a resolution to the effect that the *bustee* is an unhealthy area and that, in their opinion, the purchase or acquisition of the *bustee*, or of any portion thereof, is necessary for the purpose of making the improvements referred to in the said report.

(*2*) When any such resolution has been passed, the **Commissioners** shall make a plan for the improvement of the said *bustee* or portion thereof, together with such estimates as may be necessary for a due understanding of the same, and may then purchase or acquire the said *bustee* or portion thereof, and such plan shall be deemed to be the standard plan of the *bustee*.

(*3*) When any *bustee* or portion of a *bustee* has been so purchased or acquired, the **Commissioners** shall, as soon as is reasonably practicable, either—

(*a*) sell or let the same or part thereof to any person for the purpose and under the condition that he will, as respects the land so sold or leased to him, carry out the improvements shown in such standard plan, or

(*b*) themselves bring the said *bustee* or portion thereof or any part of the same which has not been sold or leased under clause (*a*) into conformity with such standard plan, or

(*c*) proceed under the provisions of section 468 **of the Calcutta Municipal Act, 1923,** to take measures for the erection of sanitary dwellings for the working classes, or for the poorer classes, or for both, on such land.

(*4*) Whenever the **Commissioners** decide to sell or let under sub-section (*3*) any *bustee* or portion thereof so purchased or acquired from any person, they shall offer to the said person or his heirs, executors or administrators a prior right to purchase or take on lease such *bustee* when disposing of the same under sub-section (*3*), if such person applies in this behalf, at such rate and on such terms and conditions as may be fixed by the **Commissioners,** if the **Commissioners** consider that such a right can be given without detriment to the carrying out of the purposes of **the Calcutta Municipal Act, 1923, as in force in the town of Howrah or the Bengal Municipal Act, 1884.** If more than one person applies to the **Commissioners** that a *bustee* or portion thereof be sold or let to him, the **Commissioners** shall determine which of such persons has the prior right to take such *bustee* under this section.

352. (*1*) No standard plan approved for a *bustee* under this chapter, shall, without the consent of the owner thereof, show more than—

(*a*) one-fourth of the whole area of such *bustee* as streets or passages, or

(*b*) one-third of such area as open lands not to be built upon, whether such open lands be common ground, streets, passages or spaces behind a line of huts.

(*2*) In calculating the said proportions of one-fourth and one-third of any such area, no tank situated therein that has not been filled up shall be taken into account.

REGULATION OF PLOTS BY STANDARD PLAN, AND COMPENSATION FOR ADJUSTMENT OF PLOTS.

353. (*1*) When the land included in a *bustee* is owned by more owners than one, each owning one or more separate plots of such land, the standard plan approved under this chapter for such *bustee* shall, as far as practicable, provide—

(*a*) for one or more huts being completely contained in each such plot, and

(*b*) for such proportion of each such plot being taken for streets, passages and open land as is specified in section 352.

(*2*) If a greater proportion of any one such plot than the proportion specified in section 352 is so taken such standard plan shall indicate—

(*i*) the compensation which shall be payable to the owner of such plot, and

(*ii*) the persons who are liable to pay such compensation by reason of their benefiting by such greater proportion having been taken.

(*3*) If no person can equitably be called upon to pay such compensation, the same shall be paid by the **Commmissioners.**

(*4*) Any compensation payable under this section to the owner of any land in a *bustee* shall not be paid until such land has been brought into complete conformity with the standard plan.

STREETS AND PASSAGES SHOWN IN STANDARD PLAN, IF NOT PUBLIC STREETS TO REMAIN PRIVATE.

354. (*1*) Every street or passage in a *bustee* which is shown in the standard plan approved under this chapter for that *bustee*, and which is not already a public street, shall, unless the **Commissioners** and the owners of the land on which such street or passage is situated otherwise consent as provided in section 318, be deemed to be a private street ; and the portion thereof which falls on the land of each owner shall belong to such owner ;

Provided that any portion of any such street or passage which is situated on land purchased or acquired by the **Commissioners** under section 349 shall remain the property of the **Commissioners**.

Provided that, notwithstanding anything contained in the Indian Limitation Act, 1908 (IX of 1908), no use of any such street shall, by reason of any lapse of time, be held to confer a right of way on the public so as to bring the street within the definition of a " public street " in clause (57) of section 3.

BATHING ARRANGEMENTS AND PRIVY ACCOMMODATION IN *bustee*, AS SHOWN IN STANDARD PLAN, TO BE KEPT OPEN FOR USE OF TENANTS.

355. The bathing arrangements and privy accommodation in a *bustee*, which are shown in the standard plan approved under this chapter for such *bustee* as being common to the use of all or some of the tenants of the *bustee*, shall at all times be kept available for the use of such tenants :

Provided that, notwithstanding anything contained in the Indian Limitation Act, 1908, if at any time the land on which any such bathing arrangements or privy accommodation are provided ceases to form part of such *bustee*, no such use shall, by reason of any lapse of time, be held to confer any right on any person so as prejudicially to affect the rights of the owner of such land.

356. (1) The owner of any land in a *bustee*, for which a standard plan has been approved under this chapter, shall maintain in proper order and repair, to the satisfaction of the **Commissioners**, such streets, passages, drains, common bathing arrangements, common privy accommodation, means of lighting, means of water-supply and other works on such land as may be shown in the plan.

(2) The **Commissioners** may, at any time, cause a written notice to be served upon such owner requiring him so to maintain such streets, passages, drains, common bathing arrangements, common privy accommodation, means of lighting, means of water-supply and other works :

Provided that any convenience made by the owner of a hut for his own use shall, subject to such notice as aforesaid, be maintained by him and not by the owner of the *bustee*.

(3) If the **Commissioners** are satisfied that any street, passage, drain, bathing arrangements, privy accommodation, means of water-supply or other work, or any portion thereof, has been damaged by any tenant or tenants of the *bustee*, the **Commissioners** may, if they think it desirable to do so, call upon such tenant or any one or more of such tenants by a written notice to repair such street, passage, drain, bathing arrangements, privy accommodation, means of water-supply or other work or portion thereof.

359. (1) The owner of any land included in a *bustee* and bearing a separate number in the assessment-book may, at any time, whether a standard plan for the *bustee* has been prepared under this chapter or not, send a written notice to the **Commissioners** that he intends to remove all the huts standing on such land :

Provided that the receipt of any such notice by the **Commissioners** shall not be a bar to the approval by the **Commissioners**, under this chapter, of a standard plan of such *bustee*.

(2) From the date of such notice no application shall be entertained for erecting on such land any new building which is a hut or adding to any hut standing thereon.

(3) Such owner shall, within six months after the date of such notice, or within such further time as the **Commissioners** may from time to time allow, remove all huts standing on such land ; and if he does not do so, the notice shall be deemed to be cancelled.

(4) When all such huts have been so removed, such land shall, according to its situaton, either—

(i) be altogether excluded from the limits of the *bustee*, or

(ii) be shown in a standard plan approved for the *bustee* under this chapter, as not being a part of such *bustee* :

Provided that, if in the standard plan any street or passage is shown on such land, the provisions of sections 343, 346, 350, 354 356 and 357 shall, with all necessary modifications, be deemed to apply to such street or passage unless the **Commissioners** otherwise direct.

(5) If, after all the huts standing on any land have been removed under sub-section (3), any application is received for erecting any hut on such land, the **Commissioners** may, by written notice, require the owner of the land to carry out such improvements included in the standard plan as they may think fit.

(6) When all the huts standing on any land within a *bustee* have been removed under sub-section (3), the **Commissioners** may either—

(a) cancel the standard plan (if any) already approved, under this chapter, for such *bustee*, or

(b) modify such plan, after hearing the objections (if any) of any owner of land included in such *bustee*.

(7) Where any land, formerly included in a *bustee*, ceases to be so included, and where any street or passage was shown on such land in the standard plan and where on such land ceasing to be so included the **Commissioners** do not consider it to be practicable or do not consider it to be expedient to change the alignment of such street, they shall, in applying the proviso to sub-section (4) to such street, compensate the owner of such land for any area that is included in such street which is in excess of one-seventh of the entire area of the land which ceases to be included in the *bustee*.

Bustee streets.

POWER TO **Commissioners** TO PRESCRIBE ALIGNMENTS FOR *bustee* STREETS.

360. (1) In any *bustee* in respect of which a standard plan has not been prepared, or in any area in which it appears to the **Commissioners** that huts are likely to be erected, the **Commissioners** may, after hearing the objections, if any, of any owner of land in such *bustee*, prescribe alignments, not more than sixteen feet in width, for such private streets as they may think fit.

(2) When the land within such *bustee* or area is owned by more owners than one, each owning one or more separate plots of such land, such alignments shall, as far as practicable, be so prescribed as not to occupy, within any such plot, more than one-fifth of the area thereof and shall not ordinarily be less than two hundred and fifty feet apart.

(3) If, in any such plot, more than one-fifth of the area thereof is occupied by such alignments, the **Commissioners** shall pay reasonable compensation to the owner of the plot:

Provided that no such compensation shall be paid in respect of any such plot as long as any hut or other structure other than a masonry building is left standing within any such alignment in the plot.

(4) No hut or portion of a hut shall be erected within any alignment prescribed under sub-section (1).

(5) The provisions of section 354, shall, with all necessary modifications, be deemed to apply to every street the alignment for which has been prescribed under this section.

361. (1) In any *bustee*, at any time after the expiration of seven years from the time when any alignment has been prescribed—

(a) for a street under section 360, or

(b) for huts, under rule 66 of Schedule XVII,

the **Commissioners** may, by written notice, require the owner of the land or the owners or occupiers of existing huts to remove such huts or portions thereof as fall—

(i) within any such prescribed street alignment, or

CONDITIONS AS TO USE OF BUILDING-SITES.

1. No piece of land shall be used as a site for the erection of a building—

(*1*) if the building is to abut on a street, unless the site is of such a shape that the face of the building can be made parallel to the line of the street, or as nearly parallel to the said line as the **Commissioners** may consider practicable ; and

(*2*) if the site is within thirty feet of a tank, unless the owner takes, or satisfies the **Commissioners** that he will take such order as will prevent any risk of the drainage of the building passing into the tank ; and,

(*3*) if the site is a filled up tank, or has been filled up with, or used for depositing rubbish, offensive, matter or sewage, unless the **Commissioners** have caused the site to be examined and granted a certificate to the effect that it is, from sanitary and engineering points of view, fit to be built upon ; and,

(*4*) if the building to be erected is a public building, a dwelling-house or a hut intended for human habitation, unless the site is certified by the **Commissioners** to be dry, and well-drained, or unless the **Commissioners** are satisfied that it is capable of being well-drained and that the owner will take the necessary steps to drain it.

(*2*) The **Commissioners** when granting a certificate under this rule, may charge such fees, not exceeding ten rupees for any one building, as they may think fit.

Part II.—Buildings generally.

HEIGHT.

3. (*1*) If a building is situated at the side of a street, no portion of the building, except open or balustraded parapets not more than four feet high, shall intersect any of a series of imaginary line drawn across the street at an angle of forty-five degrees with the horizontal, such lines being drawn from the side of the street which is the more remote from the building in question, from a height of two feet above the centre of the street :

Provided as follows —

(*i*) where the said street is joined at an angle by another street facing the building, or where the street in which the building is situated terminates in front of the building, the height of that portion of the building which is opposite the street facing it measured from two feet above the centre of the street, shall in the former case, not exceed the height which would be permissible if the building abutted on or were situated on the side of a street equal in width to the width of the street on which it abuts or on the side of which it is situated *plus* half the width of the street facing it, and in the latter case, the height of the building shall not exceed the height which would be permissible if the building abutted on or were situated on the side of a street one-and-a-half times the width of the street terminating in front of it ;

may be erected without complying with the requirements of the said sub-rules.

there shall be between the buildings an open space extending along the entire length of such side and forming part of the side of the said domestic building :

Provided that attachment of any building to the adjacent building shall not be allowed (except with the permission of the **Commissioners**) in areas declared for the purpose if either of the buildings is a dwelling-house.

(2) The minimum distance across such space from every part of the said domestic building to the boundary line of the land or building immediately opposite such parts shall be—

(a) six feet, if there is a building next to such boundary line or within two feet of it, or

(b) four feet, if there is an open space of two feet or more on the other side of such boundary line :

Provided that where there is a public street by the side of the site which is less than six feet wide, the owner may, by giving to the **Commissioners** free of charge such lands as will make the street six feet wide, be exempted from leaving further side space under this rule.

(3) Notwithstanding anything contained in this rule, where a site adjacent to the site of a proposed building is not occupied by a masonry building situated within ten feet of the boundary line between the two sites and within twenty-four feet from the frontage of the street on which the two sites abut, the proposed building may, with the sanction of the **Commissioners**, be erected along the said boundary line up to a depth of twenty-four feet from such street frontage, unless, in the opinion of the **Commissioners**, there is any objection to any building which may be subsequently erected on the adjacent site being attached to the building so erected.

33. (1) Every court-yard of a building, and every open space prescribed by rule 30 or rule 32, shall be raised at least one foot above the level of the centre of the nearest street, so as to admit of easy drainage into the street.

(2) Every such court-yard and open space shall form part of the site of the building, shall be open to the sky throughout its entire area, and shall be kept accessible for the purpose of cleansing ; and no structure shall be erected within or above, or so as to project over, the same :

Provided that—

(a) a one-seated or two-seated connected-privy or a privy with a bath-room attached thereto or two connected-privies, not exceeding forty square feet in floor-area in the aggregate, exclusive of walls, may be erected in the open space left under rule 30, sub-rule (2) ; and

OPEN SPACE PRESCRIBED FOR ONE SITE NOT TO BE TAKEN FOR ANOTHER SITE.

EDUCATION DEPARTMENT.

DARJEELING, THE 6TH JUNE 1930.

RESOLUTION.—No. 567T.Edn.

Minister-in-charge: The Hon'ble Mr. K. Nazim-ud-Din, C.I.E.

By Government Resolution No. 965T.Edn., dated the 26th October 1920, as modified by Resolution No. 275Edn., dated the 8th February 1922, a Selection Committee was appointed to advise Government on the selection of candidates for direct appointment to the Indian Educational Service and Provincial Educational Service (now called the Bengal Educational Service) and certain rules were framed to regulate the selection of candidates and the maintenance of a panel of approved candidates. Since then all recruitment to the Indian Educational Service has been stopped as a result of the decision of the Government of India on the Lee Commission Report and it has been decided to replace that service by a new Superior Educational Service of the provincial grade. In regard to the Bengal Educational Service, in the Appointment Department notification No. 3099A., dated the 22nd March 1928, the Local Government, in exercise of the powers conferred by rule XIIA of the Civil Services (Governors' Provinces) Classification Rules and rule 3 (*2*) (*a*) of the Civil Services (Governors' Provinces) Delegation Rules, 1926, made by the Secretary of State for India in Council under section 96B (*2*) of the Government of India Act, have constituted a permanent Selection Board for Bengal to advise upon the first appointment of officers to Provincial Services and have laid down rules regulating the constitution and function of the Board. Again, in the Appointment Department notification No. 7183A., dated the 22nd May 1930, the Local Government have published certain rules to regulate appointments to Provincial Services, known as the Bengal Provincial Services Recruitment Rules, and these rules require that recruitment to a Provincial Service shall be made on the result of a competitive examination or by promotion or by selection, after consulting the Selection Board. As under the latter rules all first appointments to the Bengal Educational Service, or to the new Superior Educational Service on its constitution will have to be made on the advice of the permanent Selection Board, it is no longer necessary to retain the Selection Committee constituted in 1920 or to maintain a panel of approved candidates for direct appointment to those services. The Government of Bengal (Ministry of Education)

accordingly direct that the Selection Committee be dissolved with effect from the date of this order.

Order.—Ordered that the Resolution be published in the *Calcutta Gazette* for general information.

Ordered also that a copy of the Resolution, be forwarded to the Chairman, and the Members of the Selection Committee and to the Secretary to the Committee for information.

Ordered also that a copy be forwarded to the Director of Public Instruction, Bengal, for information and communication to the Governing Bodies of Government Colleges.

By order of the Government of Bengal
(Ministry of Education),

A. J. DASH,

Secy. to the Govt. of Bengal.

1. A competitive examination for admission to the Indian Audit and Accounts Service, the Military Accounts Department, the Imperial Customs Service, and the Indian Railway Accounts Service, shall be held in India at such time as the Governor General in Council may direct.

2. 3. (*i*) A candidate shall apply to be admitted to the examination before such date, and in such form and manner as the Governor General in Council may prescribe.

(*ii*) If a candidate is employed at the date of his application in Government service he shall make application through the head of his Department to the Local Government if he is employed by the Local Government, or to the Government of India if he is employed in a department under the control of the Government of India.

(*iii*) If he is not in such service, he shall apply to the authority of the area in which his parents reside at the time of the application or have previously resided for a period of not less than three years, or in which he has himself resided (otherwise than as a student at a University only) for the like period.

Page 51—Rule 135A.—*Insert* the following as a new Rule under a separate heading:—

Fixation of issue rates of articles of stock so as to include general charges.

Bengal Financial Rule 135A.—The following rules lay down the procedure to be observed in the fixation of issue rates of articles of stock so as to include general charges in the form of a percentage on the actual cost of the articles:—

At the commencement of each year, the Divisional Officer should estimate the total cost of the general services for the year referred to in the entries (*1*) to (*3*) of rule 135 and the total value of the purchases expected to be made during that period and work out the percentage rate which the former bears to the latter. In assigning issue rates in terms of rule 135 the share of the cost of these general services should be included therein at the percentage so arrived at, calculated on the actual cost of the stock article in question, but it should be seen that the issue rate is in no case in excess of the market rate.

2. All charges actually incurred in connection with the general services in question

should in the first instance be grouped under an additional sub-head "general charges," the total at debit of which should at the end of the year be cleared by transferring to the several other (existing) sub-heads of stock, their proportionate share based on the actual debits to each sub-head during the year. The transfer so made will be set off against the profit under the sub-head that would otherwise result from the existing sub-heads being debited only with the actual cost of stock articles (exclusive of the charges for general services) during the year and their issue during the year or valuation at the close of the year made at rates inclusive of the general charges.

3. Charges which are definitely in connection with a particular article of stock, viz., repairs to a lime godown, which should be wholly debited to "lime" or those in connection with a particular sub-head of stock such as the pay of the chowkidar of a timber yard which should go to the sub-head "Timber," should not be accounted for under the new sub-head "General charges."

Orders and Notifications by the Government of India republished for general information.

DEPARTMENT OF EDUCATION, HEALTH AND LANDS.

NOTIFICATION.

H. (G.).

Simla, the 11th June 1930.

No. 1248.—The following draft of certain rules which it is proposed to make in exercise of the powers conferred by sub-section (1) of section 213 of the Indian Merchant Shipping Act, 1923 (XXI of 1923), is published, as required by sub-section (3) of the said section, for the information of all persons likely to be affected thereby, and notice is hereby given that the said draft will be taken into consideration on or after the 15th September 1930.

Any objection or suggestion which may be received in respect of the draft before the said date will be considered by the Governor General in Council.

Draft Rules.

1. (1) These rules may be called the Fire Extinguishing Appliances (Pilgrim Ships) Rules, 1930.

(2) They apply to pilgrim ships, and shall come into force on the 1st day of February 1931, from which date rules 11 to 15 of the rules published with the notification of the Government of India in the Home Department No. 1902 (Sanitary), dated the 14th October 1910, shall be cancelled.

Provided that these rules shall not apply, and rules 11 to 15 of the rules published with the said notification shall continue to apply to pilgrim ships with regard to which a certificate of survey was granted before the 1st day of February 1931 under section 136 or section 144 of the Indian Merchant Shipping Act, 1923, while such certificate is in force.

2. In these rules "approved" means approved by the Governor General in Council.

3. (1) *Spaces occupied by passengers and crew.*—On every ship of more than 4,000 tons gross tonnage, at least three, and on every other ship at least two, steam or equivalent pumps shall be available for the spaces occupied by passengers and crew: provided that more than two pumps shall not be required on ships whose keels were laid before the 1st February 1931. Each such pump shall be capable of providing a full supply of water, in accordance with the requirements specified in sub-rule (1) of rule 6, to one or more ranges of water service pipes. The service pipes shall be of metal, with branches so arranged that the fire hoses may be coupled thereto, and two powerful jets of water may be rapidly and simultaneously brought to bear, by means of single lengths of hose from each branch, upon any part of each deck space occupied by passengers or crew, when the water-tight and fire doors are closed. Where the water service is on an exposed deck, the branches necessary to comply with the foregoing requirements shall, in the case of vessels whose keels are laid after the 1st February 1931, be fitted on both sides of the deck.

Provided that the main engine sanitary pump shall be allowed to count as one of the pumps required to be available if it is so fitted as to be capable of serving the purpose of such pump.

(2) Every ship shall carry an efficient portable hand pump with suction and hose complete.

(3) Portable chemical fire extinguishers of an approved pattern shall be carried in every compartment wherein passengers and crew are accommodated. There shall be two extinguishers in each such compartment, and when passengers are carried in enclosed spaces above the upper deck, there shall be at least one extinguisher on each side of such spaces at intervals of not more than 60 feet.

4. *Cargo spaces.*—On every ship arrangements shall be made whereby two powerful jets of water may be rapidly and simultaneously directed into any cargo compartment, and, save in the case of a ship of less than 1,000 tons gross tonnage, satisfactory means shall also be provided whereby steam or other gas incapable of supporting combustion may be conveyed to each such compartment.

5. (1) *Machinery and bunker spaces.*—Arrangements shall be made in ships which use coal as fuel whereby two powerful jets of water can be rapidly and simultaneously directed into any part of the coal bunker spaces, boiler rooms and machinery spaces.

(2) In ships in which the main boilers are oil fired the following additional arrangements shall be made:—

(*a*) The fire hoses in the machinery spaces shall be provided with additional conductors suitable for spraying water on oil without undue disturbance of the surface.

(*b*) In each firing space there shall be placed a receptacle containing 10 cubic feet of sand, sawdust impregnated with soda, or other approved dry material; and scoops for distributing the same.

(*c*) In each boiler room, and in each of the machinery spaces in which a part of the oil fuel installation is situated, there shall be provided two approved portable chemical extinguishers of a type discharging froth or other approved medium suitable for quenching oil fires.

(*d*) Means shall be provided whereby froth may be rapidly discharged and distributed over the whole of the lower parts of any boiler room, or of any machinery space in which oil fuel units or settling tanks may be situated. The quantity of froth which can be discharged should be amply sufficient to cover up to a depth of 6 inches the whole area of the plating formed in any one compartment by the inner bottom plating, or by the shell plating of the vessel if there is no double bottom tank. If the engine and boiler rooms are not entirely separate, and fuel oil can drain from the boiler room bilges into the engine room, the combined engine and boiler rooms shall be treated as one compartment. Provided that if other effective means are available for combating fire and the apparatus can be controlled from outside the compartment in which fire may occur, the Governor General in Council may exempt from the requirements of this clause ships whose keels were laid before the 1st February 1931 on which it would not be reasonable to require the fitting of large froth installations.

(*e*) There shall further be provided one extinguisher of at least 30 gallons capacity in ships having one boiler room, and two such extinguishers in ships with more than one boiler room. These extinguishers shall be provided with hoses on reels suitable for reaching any part of the boiler rooms and spaces containing oil fuel pumping units. Provided that the Governor General in Council may permit the fitting of any other equally efficient apparatus in place of the 30 gallons extinguisher.

(*f*) All containers and valves by which they are operated shall be easily accessible and so placed that they will not readily be cut off from use in case of fire.

6. (1) *Pumps.*—In all ships each of the steam or equivalent pumps shall be capable of supplying simultaneously two powerful jets of water for use in any part of the vessel. The pumps shall be worked by steam or by some other equally efficient motive power, and shall always be available for immediate use at all reasonable times when the vessel is in commission.

(2) All steam or equivalent pumps shall be provided with effective escape valves suitably adjusted and so placed as to prevent excessive pressure in any part of the water service system.

7. *Water service pipes.*—The main water service pipes shall be made of wrought material, and, if of iron or steel, shall, in the case of vessels whose keels were laid after the 1st February 1931, be galvanised. They shall be sufficiently large in diameter for the adequate supply of water to the fire hoses which shall be secured to them for simultaneous operation. The branches shall be so placed that the fire hoses may be conveniently coupled to them, and cocks or valves shall be fitted where required to admit of any hose being removed, if desired, while the pumps are at work.

8. (1) *Fire hoses.*—The fire hoses shall be of leather, seamless hemp, flax canvas of first-class quality, or other approved material. They shall be provided with suitable metal unions and conductors, and with goose-neck connections where necessary.

(2) A sufficient number of fire hoses with attachments and conductors shall be suitably distributed about different decks in the ship so as to be readily available for rapid use in any space occupied by passengers or crew, and not less than three hoses and attachments shall be provided in any vessel.

(3) The fire hoses and the conductors, and other apparatus referred to in sub-rules (1) and (2), together with coupling wrenches if required, shall be kept ready for use in conspicuous positions near the water service hydrants or connections. They shall be used only for the purposes of extinguishing fires or for testing the fire extinguishing apparatus at fire drills and surveys, and not for washing decks.

9. *Arrangements for injecting steam or other gas into cargo spaces and boiler rooms.*—Where provision is made for the injection of steam or other gas into the cargo spaces and boiler rooms for fire extinguishing purposes the necessary pipes for conveying the steam or gas to holds or other compartments shall be provided with controlling valves or cocks readily accessible from the deck and so marked as to indicate clearly the compartments to which the pipes are respectively led. Suitable provision shall be made for locking these valves or cocks so as to prevent inadvertent admission of the steam or gas to any compartment. If any pipe is led to a space to which passengers have access, it shall be furnished with an additional stop valve or cock also capable of being locked. Provided that the Governor General in Council may permit the substitution of any other equally efficient safety device giving the requisite security from danger.

10. (1) *Fluid fire extinguishers.*—A sufficient number of approved portable fluid fire extinguishers discharging water shall be provided in accordance with the requirements of rules 3 and 5. For ordinary purposes not specifically referred to in these rules, the capacity of *portable* extinguishers shall be not more than three imperial gallons, and not less than two imperial gallons, provided the Governor General in Council may, in his discretion, permit the use of an extinguisher of less than two gallons capacity in special circumstances.

(2) An approved type of portable extinguisher discharging a medium other than water may in the case of not more than 20 per cent. of the total number of extinguishers required to be carried be substituted for the ordinary water-discharging extinguisher.

(3) The portable hand fluid fire extinguishers (apart from those supplied in boiler rooms, etc., specially for use in connection with oil fuel) shall not be of more than two types in any one ship.

(4) All extinguishers, whether portable or otherwise, shall be placed in positions where they are readily accessible.

11. *Smoke helmets and safety lamps.*—At least two smoke helmets and two safety lamps of approved types shall be included in the fire extinguishing equipment of every vessel and the helmets shall be stowed separately. The members of the crew shall be practised regularly in their use.

12. *Emergency appliances.*—The necessary emergency fire appliances such as knives, axes, and crowbars, shall be kept in a place readily accessible at all times from different parts of the ship.

13. *Fire drill.*—Fire drill shall be observed at least once a week on board all vessels and during such drill all fire appliances shall be put into use and the fact entered in the Log Book. The great utility of woollen or asbestos blankets for smothering small fires shall always be impressed on all persons taking part in a fire drill.

14. (1) *Custody of fire apparatus and fire patrol.*—The fire apparatus shall be placed by the master under the special charge of one of the principal officers of the ship and of the ship's carpenter, who shall both be held responsible that the apparatus is kept in a state fit for immediate use. As soon as possible after leaving port, the officers and crew shall be divided into parties and assigned to stations in case of fire.

(2) A continuous patrol system shall be organised so that any outbreak of fire may be promptly detected.

15. (1) *Stowage of cargo and disposal of inflammables.*—The cargo of every ship shall, before she leaves port, be properly stowed away and the decks shall be cleared of any loose straw hay and other inflammable material. Any goods which are dangerous by reason of their inflammability or liability to explosion shall be stowed, subject to the provisions of any law or rules in force, in such manner as to safeguard the ship from danger of fire or explosion. The tanks of motor cars carried on the ship shall be drained before loading.

(2) Before a ship leaves port, every passenger shall deliver up any lucifer matches, gun-powder or other inflammable article in his possession.

16. *Use of naked lights and spirits.*—Naked lights shall not be used in the holds or store rooms or between decks, except under trustworthy superintendence. No person shall read in bed with a naked light. Casks or drums containing spirit shall not be opened in the hold but shall be hoisted on deck for the purpose.

17. In the case of a small vessel under 200 feet in length when it is shown to be unreasonable to require full compliance with any of the provisions of these rules, such relaxation shall be granted as the Governor General in Council may, having regard to all the circumstances of the case, direct.

Penalty.

18. Whoever does any act in contravention of any of the provisions of these rules shall be punishable with fine which may extend to two hundred rupees.

[The Secretary of State is unable to give any undertaking that the Regulations will remain unaltered in the future.]

1. The Secretary of State for India in Council will, in the near future, make nine* appointments of Assistant Executive Engineers in the Public Works Department in India, if so many suitable candidates present themselves.

In making these appointments he will act with the advice of a Selection Committee, including at least one eminent representative of the Engineering profession. The Selection Committee will probably sit in July.

2. Applications must be made on a printed form, which may be obtained from the Secretary, Services and General Department, India Office, Whitehall, S.W. 1, and should reach the India Office not later than 30th June 1930.

3. Candidates must have attained the age of 21 and not attained the age of 24 years on the 1st January 1930.

4. Except as stated in the note on paragraph 1 hereof every candidate must be a European British subject of non-Asiatic domicile, and if he or his father or his mother was not born within His Majesty's Dominions and allegiance, the father must at the time of the candidate's birth have been a British subject and still be (or have continued to be until his death) a British subject. The decision of the Secretary of State in Council whether a candidate satisfies these conditions shall be final. A candidate must also be of good moral character and sound bodily health and in the opinion of the Secretary of State for India in Council, in all respects suitable to hold an appointment in the Indian Public Works Department.

5. Candidates must produce evidence that they have either (1) obtained one of the University degrees mentioned in Appendix I; or (2) passed Sections A and B of the A.M.I.C.E. examination; or (3) passed the Associateship in Engineering of the City and Guilds Institute (Imperial College of Science and Technology, South Kensington); or (4) obtained such other diploma or distinction in Engineering as the Secretary of State may decide to accept in any particular case. It is preferred that candidates should have taken a college course and obtained one of the degrees mentioned in Appendix I. They should in addition have had about a year's approved practical experience of Engineering.† Those whose qualifying diploma has been obtained without a college course should have had about three years of such practical experience.

* Of these nine appointments, one will be allotted to a Burman candidate if one presents himself and is found qualified. Such a candidate, if selected, will be appointed to the India-recruited Branch of the Department in Burma on the usual terms and conditions applicable to that Branch. Separate Regulations showing the terms applicable to this appointment will be issued to Burman candidates on application.

† Applications for these posts will be accepted provisionally from candidates who will be able to complete the year's practical experience before they are required to proceed to India.

6. Selected candidates will be required to undergo further training on works in India for a period of at least one year. During this period they will be on probation and their final appointment will be made dependent upon the result of such probation.

7. Candidates must be prepared, if called upon, to attend at the India Office for a personal interview with the Selection Committee. Their railway fares in this country for the purpose will be paid by the India Office.

8. Selected candidates will further be required, before final appointment by the Secretary of State in Council, to appear before the Medical Board at the India Office for examination as to their physical fitness for service in India.

*9. They will also be required to satisfy the Secretary of State of their ability to ride.

10. They will on appointment be provided with a free first-class passage to India and will be expected to proceed thither as soon after the middle of September as can be arranged.

They will be entitled to the benefits of the Passage Rules which are summarised in Appendix V.

11. Their pay and their service for leave will begin from the date of their landing in India, subject to their proceeding to take up their duties without avoidable delay. If they so desire, they will be able to obtain an advance of two months' pay, recoverable by monthly instalments of one-third of salary. Of this advance a portion not exceeding one-half may be drawn in England.

12. Candidates will enter the service as Assistant Executive Engineers on a salary, including overseas pay, of Rs. 6,300 a year. Service for increments and for pension will count from the date of landing in India (subject as aforesaid).

13. The instruments required by Assistant Executive Engineers are supplied to them in India.

14. Particulars as to pay, pension, etc., are contained in Appendices III, IV, and V.

Appendix IV.

(*See* paragraph 14 of the Regulations.)

NOTE.—This Appendix is merely intended to show the principal leave rules in the Fundamental Rules and the Pension Rules at present applicable to Engineers appointed to the Indian Services from the United Kingdom without going into minute details, and does not profess to deal with every case that may arise. The rules are subject to alteration, and any disputed question must be decided with reference to the authorised text of the Fundamental Rules or Civil Service Regulations for the time being.

LEAVE.

(The following rules apply only to officers of non-Asiatic domicile.)

1. Leave is calculated in terms of "leave on average pay," and the amount of "leave on average pay" which an officer earns is five twenty-seconds of the period spent on duty.

2. Subject to certain maxima and minima and to the limitations noted below, an officer may draw, at his option, leave salary equal to the average pay of the last 12 months of completed duty or to half such average pay. All leave on average pay and half the period on half average pay is counted against the leave earned. An officer may take his leave on average pay, on half average pay, or on a combination of the two, provided that his continuous absence from duty does not exceed 28 months, and that the amount of leave taken on average pay does not exceed eight months at any one time. The maximum amount of leave admissible during an officer's career, expressed in terms of leave on average pay, is three years plus one-eleventh of the period spent on duty, of which not more than one year plus one-eleventh of the period spent on duty may actually consist of leave on average pay. Leave not due and carrying half average pay may be granted on medical certificate, and, within certain limits, for other reasons, but an officer will not again commence to earn leave until the expiration of a fresh period of duty sufficient to earn a credit of leave equal to the leave he has taken before it was due. After 28 months' absence from duty an officer draws quarter average salary, subject to certain maxima and minima.

3. Leave salary is ordinarily payable in rupees if the officer spends his leave in Asia, and in sterling if he spends it elsewhere.

4. It should be noted that leave can never be claimed as of right, but is given or refused at the discretion of Government.

PENSIONS.

5. The following is a summary of the pension rules applicable to Engineers appointed to the Indian Services by the Secretary of State from the United Kingdom.

Ordinary Pensions.

6. Subject to the absolute right, which will not ordinarily be exercised, of the Government of India to decline to permit any officer to retire before reaching the age for superannuation, should it be necessary in the public interest to retain his services, officers will be allowed to retire optionally after 20 or more years' qualifying service.

7. An officer is entitled to superannuation pension on attaining the age of 55 years, when retirement is ordinarily required, or on retirement thereafter. (An officer is sometimes, for special reasons, retained after attaining the age of 55 years.)

8. The rates of retiring and superannuation pension are 30/60ths of average emoluments, subject to the following maxima:—

Completed years of qualifying Service.	Maximum Limit of Pension. Rs.
20—24	4,000 per annum.
25	6,000 ,,
26	6,200 ,,
27	6,400 ,,
28	6,600 ,,
29	6,800 ,,
30	7,000 ,,

9. Government may retire any officer after he has completed 25 years' service without giving reasons, and without any claim for compensation in addition to pension, and in that event the pension admissible to him will ordinarily be regulated

on a scale not exceeding that laid down above. Government also reserves the general power to reduce the pension ordinarily admissible in all cases where an officer's service has been unsatisfactory.

10. An officer who is compelled to retire through ill-health not occasioned by irregular or intemperate habits will be eligible for invalid gratuity or pension as follows:—

(*a*) After qualifying service of less than 7 years a gratuity not exceeding one month's emoluments for each completed year of service (except in special cases and under the orders of the Government of India, who may sanction a maximum of 12 months' emoluments). If the emoluments of the officer have been reduced during the last three years of his service, otherwise than as a penalty, average emoluments may, at the discretion of the authority which has power to sanction the gratuity, be substituted for emoluments.

(*b*) After a service of not less than 7 years, a pension not exceeding the following amounts:—

Completed years of qualifying Service.	Scale of Pension.	Maximum.
		Rs.
7	7 sixtieths of average emoluments	2,000 per annum.
8	8 ,, ,,	2,350 ,,

26	30 ,, ,,	6,200 ,,
27	30 ,, ,,	6,400 ,,
28	30 ,, ,,	6,600 ,,
29	30 ,, ,,	6,800 ,,
30 and above	30 ,, ,,	7,000 ,,

Average emoluments are calculated over the last three years of service.

Pensions drawn in this country are converted into sterling at a privileged rate of exchange of 1*s.* 9*d.* the rupee.

Additional Pensions.

11. The Government of India have classified certain high appointments into two grades, the lower comprising those posts which involve high but intermediate responsibility, the higher consisting of those which require a marked degree of independent administrative and professional capacity. Officers who have held appointments listed in the lower grade may be granted an additional pension at the rate of Rs. 300 for each completed year of effective service in any appointment included in that grade, provided that no officer may draw an additional pension in excess of Rs. 1,500 in respect of service classed in the lower grade. Officers who have held appointments listed in the upper grade may be granted an additional pension at the rate of Rs. 500 for each completed year of effective service rendered in any appointment included in that grade, provided that no officer may draw an additional pension in excess of Rs. 2,500 in respect of service rendered in the lower and upper grades combined or in the upper grade alone.

12. These additional pensions will be subject to the condition that the service in the appointment in question has been approved by Government, and that an officer must, in the event of voluntary retirement, have completed 28 years' qualifying service.

The upper grade includes the Consulting Engineer to the Government of India and Chief Engineers of the Indian Service of Engineers.

The lower grade includes Superintending Engineers, Indian Service of Engineers.

PROVIDENT FUND.

13. A General Provident Fund, to which subscription is compulsory, has also been established on the following basis:—

(1) Subscription is compulsory up to 6¼ per cent. of pay, with voluntary subscription of not more than a further 9¾ per cent., but the amount of the compulsory subscription is reduced by the amount of the subscription to the Superior Services (India) Family Pension Fund. Subscriptions during leave of any kind are optional.

(2) Compound interest on such payments is annually credited by Government to each officer subscribing.

(3) The sum which thus accumulates to the credit of an officer is his absolute property, subject to the rules of the Fund, and is handed over to him, unconditionally, on his quitting the Service; or, in the event of his death before retirement, to his legal representatives or such other person or persons as, under and subject to the rules of the Fund for the time being in force, may be entitled thereto.

THE SUPERIOR SERVICES (INDIA) FAMILY PENSION FUND.

The Superior Services (India) Family Pension Fund (inaugurated 1st September 1928) has been instituted to make provision for the widows and orphans of European and Anglo-Indian members of the Superior Civil Services in India other than the Indian Civil Service.

Subscriptions, which are compulsory for such officers, are payable, normally, for a period of 25 years commencing in the first year at £1 13*s*. 4*d*. a month and rising each year by 3*s*. 4*d*. a month to £4 16*s*. 8*d*. a month in the twentieth and subsequent years.

The benefits secured by these payments are as follows:—

To a widow:—

£200 a year with a gratuity of £200 on the death of the subscriber.

To children:—

	Birth to age 6.	Age 6 to 12.	Age 12 to 21.	Age 12 until marriage.
	£	£	£	£
Sons ...	30	45	60	—
Daughters	30	45	—	60

with a gratuity on the death of the subscriber of one year's pension at the rate appropriate to the then age of the child as specified above.

The Fund also has a Voluntary Section under which subscribers, on making the appropriate additional payments, may secure enhanced benefits up to the following maxima, which include the benefits provided under the Compulsory Section:—

To a widow:—£300 a year with a gratuity of one year's pension on the death of the subscriber.

To a child:—Over the age of 12, £100; from age 6 to age 12, £75; from birth to age 6, £50.

Appendix V.

(*a*) For the officer himself, four return passages.

(*b*) For his wife, the number of return passages shown in the following scale:—

Officer's length of service at date of marriage.	Number of return passages.

DEPARTMENT OF AGRICULTURE, BENGAL.

Dacca, the 1'th June 1930.

Monthly Weather and Crop Report of Bengal for May 1930.

I. **Character of the season.** During the month under review, the rainfall was above the average in six districts only, while in the rest of the Presidency it was in defect.

The usual rainfall statement is appended.

II. **Progress of agricultural operations.** Sowings of jute and autumn paddy were completed in East and parts of North Bengal, while in West Bengal the progress of the operations was a little slow in places for want of adequate rain. Weeding of autumn crops was proceeding briskly in East and North Bengal. Ploughing of fields for transplanted winter paddy continued.

III. **State of standing crops.** The standing crops generally thrived well in East and North Bengal, while in parts of West Bengal more rain was needed to help their growth.

IV. **Prospects and probable outturn.** The prospects of standing autumn crops and deep-water paddy were reported to be generally promising.

V. **Damage to standing crops.** During the first week of the month excessive rain and hail-storm were reported to have caused damage in places of Dacca, Faridpur and Chittagong.

VI. **Condition of agricultural stock.** The condition of live-stock was reported to be generally fair. Stray cases of cattle-disease, however, were reported from eleven districts of the Presidency and from the States of Cooch Behar and Tripura.

VII. **Failure of pasturage and fodder.** The supply of fodder was reported to be sufficient throughout the Presidency.

VIII. **Prices of food-grains.** During the second fortnight of the month, the retail price of common rice of the cheapest quality rose in nine districts, fell in five and remained stationary in the rest of the Presidency. The prices ranged from 5 seers per rupee in the 24-Parganas to 9½ seers in Burdwan.

IX. **Condition of agricultural population.** The condition of agricultural population continued to be fair on the whole.

RESOLUTION ON THE ANNUAL REPORT OF THE BENGAL SMOKE NUISANCES COMMISSION FOR THE YEAR 1929.

GOVERNMENT OF BENGAL.

Commerce Department.

DARJEELING, THE 13TH JUNE 1930.

RESOLUTION—No. 990 T.Com.

Read—

The Annual Report of the Bengal Smoke Nuisances Commission for the year 1929.

The report records further progress in the work of reducing a serious menace to health in Calcutta, and at the same time promoting a great saving in real wealth by the elimination of waste and by economy of fuel.

The increase in cases observed and inspections and tests made, and the reduction of black smoke to the lowest figure yet recorded, coupled with a decrease in the number of statutory warnings issued and the entire absence of prosecutions for four years testifies to the fact that the progress recorded has been made in co-operation with the interests concerned, and the report itself is eloquent of the enthusiasm that has underlain the work.

The Commission have recently placed before Government proposals for increasing the sphere of their activities: these proposals are being carefully considered by Government, and it is hoped that the bodies whose interests are affected by them will recognize the extent of the progress made and the value of the work.

The thanks of the Governor in Council are due to the members of the Commission as well as to Mr. John Robson, Chief Inspector and Secretary, and his assistants, for a successful year's work.

Ordered—That the resolution be published in the *Calcutta Gazette*.

Ordered—That a copy of the resolution be forwarded to the Chief Inspector and Secretary, Bengal Smoke Nuisances Commission, for information.

By order of the Governor in Council,

E. N. BLANDY,

Secy. to the Govt. of Bengal.

RESOLUTION ON THE SURGEON-GENERAL'S REPORT ON THE WORKING OF HOSPITALS AND DISPENSARIES FOR THE THREE YEARS 1926-1928.

GOVERNMENT OF BENGAL.

DARJEELING, THE 14TH JUNE 1930.

RESOLUTION No. 356 T.—Medl.

Minister-in-charge: The Hon'ble Kumar Shib Shekhareswar Ray.

This Resolution deals with the Surgeon-General's Report on the working of hospitals and dispensaries for the three years, 1926-1928, including State institutions and all aided and recognized institutions. The statistics do not, however, comprise certain small rural dispensaries which have not yet been brought on to the classified list.

Part I.

Calcutta Hospitals and Dispensaries.—A small but welcome increase in hospital accommodation in Calcutta, which falls far short of the needs of the city, was provided by the opening of the Chittaranjan Hospital with 56 beds and the Baldeo Das Maternity Home with 30 beds, and by the addition of 86 beds to the Medical College Hospital and 45 beds to the Howrah General Hospital.

Attendance and Admissions.—The total number of indoor patients treated during the three years was 149,209 with a rise from 46,653 in 1926 to over 51,000 in 1927, at which the level remained stationary. The total increase of in-patients over the previous three years was 19,447. The total number of out-patients treated during the three years was 1,087,411 with much the same annual curve as that of in-patients, but an increase of nearly 375,000 over the total for the previous three years. The disparity of proportionate increase in out-patients and in-patients is significant, the out-patient departments naturally expanding more easily to meet an increased demand; and the statistics taken together afford some index of the degree in which the increase of beds lags behind the growing popularity of the hospitals.

The Nursing Services at the Medical College Hospital and the Presidency General Hospital were conducted by the Calcutta Hospital Nurses Institution with the aid of a grant from Government. The pressure on the nursing staff at the former institution has increased considerably with the addition of honorary surgeons and physicians to the staff. There are a few nurses at other State hospitals in Calcutta, but the Campbell Hospital suffers particularly from the inadequacy of the nursing staff. Indian nurses are employed at the Sambhu Nath Pandit Hospital, but it was not found possible during the period under review to recruit the right type of candidates for Indian nurses of the higher grade at State hospitals. The recruitment of Indian nurses of the higher class, and the possibility of training a male nursing service for State hospitals are problems at present occupying the attention of Government.

An outstanding feature of hospital finances in Calcutta taken as a whole is the high proportion of the cost of providing hospital facilities for the city which is borne by Government. The total income of State, local fund and aided institutions during the three years, amounted to Rs. 97,49,306, an increase of nearly ten lakhs over that for the previous three years; and of this total the sum of Rs. 59,79,144 or over 60 per cent. was derived from payments and contributions by Government.

Municipal contributions amounted to Rs. 7,62,161 of which however Rs. 3,00,000 went back in payments by Government to the Calcutta Corporation on account of rates for State hospitals, only the Gobra Leper Asylum having been exempted from this charge.

Subscriptions and donations for the period in question are returned at Rs. 4,52,598, a figure which even though it excludes the proceeds of certain endowments is a disappointing measure of support by public charity to medical relief. The total cost of maintenance of hospitals of all three classes in Calcutta, excluding investments, was Rs. 92,53,047 as against Rs. 83,96,705 in the previous three years.

Part II.

District Hospitals and Dispensaries.—The total number of hospitals and dispensaries outside Calcutta at the end of 1928 was 1,114, exclusive of 54 homœopathic, 13 Ayurvedic and 6 Unani dispensaries; and the total number of hospital beds available for the rural population, including those at Dacca and Darjeeling, but not at Howrah, was 5,553. These figures represent an increase of 82 institutions and 244 beds over the position at the end of 1925. They do not include a few temporary dispensaries established for special purposes.

Attendance.—There the same evidence of the growing popularity of hospitals outside Calcutta as in Calcutta. The total number of patients treated during the three years was 23,775,000, an increase of more than two millions over the figures for the years 1923-1925. The ratio of 12 per cent. in the increase in the number of in-patients outside Calcutta however (from 199,112 to 226,597) actually exceeds the ratio in the increase of out-patients (below 10 per cent.) and this feature goes to confirm the impression which statistics for occupation of rural hospitals would suggest, that the accommodation available gives greater scope for meeting the actual demand for beds than in Calcutta. This demand of course itself falls far short of the number of patients who would benefit from hospital treatment but are unwilling to seek this relief. The Mitford Hospital at Dacca as usual takes a predominant part in the figures for in-patients.

Nursing.—The Surgeon-General mentions local arrangements made for nursing at various district hospitals; but if the nursing is defective even at some of the Calcutta hospitals the position in the interior is far worse. The Mitford Hospital in Dacca seems in fact to be the only institution which has a properly organized nursing staff; and even this is recognized to be inadequate for the size of the hospital.

Finances.—The extremely varied character of hospitals and dispensaries outside Calcutta makes it difficult to discuss their finances briefly to much purpose. The income of all hospitals in the province outside Calcutta and Howrah during the three years was Rs. 69,90,859. This figure is seven lakhs above the income of the previous three years but remains less than 75 per cent. of that received by hospitals serving the population of these two towns alone. Payments and contributions by the State included in this income amounted to Rs. 11,03,254 (exclusive of normal maintenance charges of Public Works Department buildings) or 15·78 per cent. of the total.

It is to be remembered that with the exception of Dacca, hospitals at district headquarters are local fund or aided hospitals and not State institutions.

Diseases.—The statistics of the most important diseases are discussed with reference to the figures for annual mortality in the Resolution on Public Health. It will be enough to mention in the present Resolution that the Surgeon-General, approaching the question from independent medical statistics, has reached the same opinion as the Director of Public Health about the decrease in kala-azar. The number of patients attended for this disease at dispensaries fell from 104,648 in 1925 to 65,829 in 1928, a year in which the grant for kala-azar still stood at its maximum figure, and no question had therefore arisen of diminishing facilities for treatment where required.

Medical Schools.—Preparations were in progress for the establishment of medical schools at Jalpaiguri, Chittagong and Barisal, and in other district headquarters which will, it is hoped, lead to the opening of these in the year 1930 and subsequent years. Private medical schools opened during the years 1925-1928 were the Calcutta Medical School, the National Medical Institute and the Bankura Medical School, and the two former have received grants from Government. The problems of the future in medical education are- firstly, to ensure that the hospital attached to each medical school is adequate in all respects for clinical training, and secondly, to open avenues to employment through which the increasing number of qualified practitioners can find scope for their services in providing the medical relief which the province so badly needs.

General remarks.—The attention of the Government has been drawn to the inadequacy of the staff of the State institutions and hospitals. To maintain them as model institutions, the Government have, however, been very cautious in giving effect to the orders passed by the Secretary of State for India on the recommendations of the Lee Commission. The retirement of several officers and the necessity of posting some of them to the Civil Surgeoncies, specially reserved for them, have made it incumbent on the Government to explore other avenues for finding suitable recruits for the important posts in the State institutions, now no longer reserved for I M S officers; and it is a matter of gratification that suitable materials are generally available both in the Provincial Medical Service and among the independent medical profession in Bengal.
